The following information must also be filled in to ensure the smooth course of the competition.

**VERY IMPORTANT!**

After the competition has finished, you must send a zipped version of the “work base” of the competition to [skate@vegax.si](mailto:skate@vegax.si).

The “work base” is usually found on C:\ISUCalcFS... However, we recommend you send the entire ISUCalcFS directory – in a zipped form, of course.

It is very desirable that the “work base” be sent in every day after the competition in order for the data to be prepared in time and published on the website <http://www.europecriterion.eu>.
